THE UNITED STATES NAVAL ACADEMY.

The United States Naval Academy was founded in 1845 by the Hon. George Bancroft, Secretary of the Navy, in the administration of President James K. Polk. It was formally opened October 10 of that year under the name of the Naval School, with Commander Franklin Buchanan as superintendent. It was placed at Annapolis, Md., on the land occupied by Fort Severn, which was given up by the War Department for the purpose. The course was fixed at five years, of which only the first year and the last were spent at the school, the intervening three years being passed at sea. This arrangement was not strictly adhered to, the exigencies of the service making it necessary, in many cases, to shorten the period of study. In January, 1846, four months after the opening of the school, the students consisted of 36 midshipmen of the date of 1840, who were preparing for the examination for promotion; 13 of the date of 1841, who were to remain until drafted for service at sea; and 7 acting midshipmen, appointed after September of the previous year. The midshipmen of the date of 1840 were the first to be graduated, finishing their limited course in July, 1846, and they were followed in order by the subsequent dates until the reorganization of the school in 1850.

In September, 1849, the following board was appointed to revise the plan and the regulations of the Naval School:

Commander William B. Shubrick,
Commander Franklin Buchanan,
Commander Samuel F. Du Pont,
Commander George P. Upshur,
Surg. W. S. W. Ruschenberger,
Prof. William Chauvenet,
Capt. Henry Brewerton, United States Army.

The plan reported by the board was approved, and went into operation July 1, 1850. The new organization provided for a course of seven years, the first two and the last two at the school and the three intermediate years at sea. The school was placed under the supervision of the Bureau of Ordnance and Hydrography, and its name was changed to the United States Naval Academy. The corps of professors was enlarged, the course was extended, and the system of separate departments with executive heads was fully adopted. It was provided that a Board of Visitors should make an annual inspection of the academy and report upon its condition to the Secretary of the Navy. A suitable vessel was attached to the academy as a practice ship, and the annual practice cruises were begun.

After the system had been in operation a year new changes were proposed, and the recommendations of the academic board on the subject were referred to the board of examiners for the year 1851, composed of the following-named officers:

Commodore David Conner,
Capt. Samuel L. Breese,
Commander C. K. Stribling,
Commander A. Bigelow,
Commander Franklin Buchanan,
Lieut. Thomas T. Craven.

The change recommended by the board of examiners, and adopted by the department, consisted mainly in leaving out the requirement of three years of sea service in the middle of the course, thus making the four years of study consecutive. The practice cruise supplied the place of the omitted sea service and gave better oppor-

tunities for training. The change went into operation in November, 1851, together with other improvements recommended by the board. This system has been continued, with some slight modifications, to the present time. The first class to receive the benefit of it was that which entered in 1851. Six members of this class completed the course in three years and were graduated in June, 1854; the rest of the class followed in 1855.

In May, 1861, on the outbreak of the war, the academy was moved to Newport, R. I. The three upper classes were detached and ordered to sea, and the remaining acting midshipmen were quartered in the Atlantic House and on board the frigates *Constitution* and *Santee*. In the summer of 1865 the academy was brought back to Annapolis, where it has since remained.

When the Bureau of Navigation was established, July 5, 1862, the academy was placed under its supervision; March 1, 1867, it was placed under the direct care and supervision of the Navy Department, the administrative routine and financial management being still conducted through the bureau. On the 11th of March, 1869, this official connection with the bureau ceased, but was renewed by the general order of the Navy Department issued June 25, 1889.

The term of the academic course was changed by law, March 3, 1873, from four to six years. The change took effect with the class that entered in the following summer.

In 1866 a class of acting third assistant engineers was ordered to the academy for instruction. The course embraced the subjects of steam engineering, mechanism, chemistry, mechanics, and practical exercises with the steam engine and in the machine shop. This class was graduated in June, 1868, together with two cadet engineers who had entered the academy in 1867. After an interval of four years, in October, 1871, a new class of cadet engineers was admitted. This class followed a two years' course, somewhat more extended than that of the class of 1868, and was graduated in 1873. In 1872 and 1873 new classes were admitted, the first of which left the academy in 1874 and the second in 1875. By an act of Congress approved February 24, 1874, the course of instruction for cadet engineers was made four years instead of two; the new provision was first applied to the class entering the academy in the year 1874. This class was graduated in June, 1878.

By an act of Congress approved August 5, 1882, it was provided that from that date "there shall be no appointments of cadet midshipmen or cadet engineers at the Naval Academy, but in lieu thereof naval cadets shall be appointed from each congressional district and at large, as now provided by law for cadet midshipmen, and all the undergraduates at the Naval Academy shall hereafter be designated and called 'naval cadets,' and from those who successfully complete the six years' course appointments shall hereafter be made as it is necessary to fill vacancies in the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps: *And provided further*, That no greater number of appointments into these grades shall be made each year than shall equal the number of vacancies which has occurred in the same grades during the preceding year; such appointments to be made from the graduates of the year, at the conclusion of their six years' course, in the order of merit, as determined by the academic board of the Naval Academy; the assignment to the various corps to be made by the Secretary of the Navy upon the recommendation of the academic board. But nothing herein contained shall reduce the number of appointments from such graduates below ten in each year, nor deprive of such appointment any graduate who may complete the six years' course during the year eighteen hundred and eighty-two. And if there be a surplus of graduates, those who do not receive such appointment shall be given a certificate of graduation, an honorable discharge, and one year's sea pay, as now provided by law for cadet midshipmen; and so much of section fifteen hundred and twenty-one of the Revised Statutes as is inconsistent herewith is hereby repealed."

"That any cadet whose position in his class entitles him to be retained in the service may, upon his own application, be honorably discharged at the end of the four years' course at the Naval Academy, with a proper certificate of graduation."

In 1886 a special course of instruction in physiology and hygiene was established, in accordance with an act of Congress approved May 20 of that year.

The act of Congress approved March 2, 1889, provides that "the academic board of the Naval Academy shall on or before the thirtieth day of September in each year separate the first class of naval cadets then commencing their fourth year into two divisions, as they may have shown special aptitude for the duties of the respective corps, in the proportion which the aggregate number of vacancies occurring in the preceding fiscal year ending on the thirtieth day of June in the lowest grade of commissioned officers of the Line of the Navy and Marine Corps of the Navy shall bear to the number of vacancies to be supplied from the academy occurring during the same period in the lowest grade of commissioned officers of the Engineer Corps of the Navy; and the cadets so assigned to the Line and Marine Corps division of the first class shall thereafter pursue a course of study arranged to fit them for service in the Line of the Navy, and the cadets so assigned to the Engineer Corps division of the first class shall thereafter pursue a separate course of study arranged to fit them for service in the Engineer Corps of the Navy, and the cadets shall thereafter, and until final graduation at the end of their six years' course, take rank by merit with those in the same division according to the merit marks; and from the final graduates of the Line and Marine Corps division, at the end of their six years' course, appointments shall be made hereafter as it shall be necessary to fill vacancies in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps; and the vacancies in the lowest grades of the commissioned officers of the Engineer Corps of the Navy shall be filled in like manner by appointments from the final graduates of the engineer division at the end of their six years' course: *Provided*, That no greater number of appointments into the said lowest grades of commissioned officers shall be made each year than shall equal the number of vacancies which shall have occurred in the same grades during the fiscal year then current; such appointments to be made from the final graduates of the year, in the order of merit as determined by the academic board of the Naval Academy, the assignment to be made by the Secretary of the Navy upon the recommendation of the academic board at the conclusion of the fiscal year then current; but nothing contained herein or in the naval appropriation act of August fifth, eighteen hundred and eighty-two, shall reduce the number of appointments of final graduates at the end of their six years' course below twelve in each year to the Line of the Navy, and not less than two shall be appointed annually to the Engineer Corps of the Navy, nor less than one annually to the Marine Corps; and if the number of vacancies in the lowest grades aforesaid occurring in any year shall be greater than the number of final graduates of that year the surplus vacancies shall be filled from the final graduates of following years, as they shall become available.

"That after the fourth day of March, eighteen hundred and eighty-nine, the minimum age of admission of cadets to the academy shall be fifteen years and the maximum age twenty years."

In October, 1897, a post-graduate course in naval architecture, for the education of officers for the Construction Corps of the Navy, was established; and a class was formed from the naval cadets that had finished the four years' course in that year.

By an act of Congress approved March 3, 1899, "the officers constituting the Engineer Corps of the Navy" were "transferred to the Line of the Navy," thereby repealing so much of the act of Congress approved March 2, 1889, as relates to the separation of naval cadets of the first class into line and engineer divisions.

This same act having limited the number of constructors in the Navy to 40, the post-graduate course in naval architecture was discontinued.

By an act of Congress approved June 7, 1900, it was provided that—

"Whenever any naval cadet shall have finished four years of his undergraduate course of six years the succeeding appointment may be made from his congressional district or at large in accordance with the existing law."

By an act of Congress approved July 1, 1902, it was provided that—

“The title ‘naval cadet’ is hereby changed to ‘midshipman.’

“That until the year nineteen hundred and fourteen, in addition to the naval cadets now authorized by law (the title having been changed by this act to midshipmen), the President shall appoint five midshipmen, and there shall be appointed from the States at large, upon the recommendation of Senators, two midshipmen for each State.”

By an act of Congress approved March 3, 1903, it was provided that—

“There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional congressional appointments authorized by this act shall be made at such time as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend for appointment during each Congress one midshipman: *Provided further*, That members of the Fifty-seventh Congress who will not be Members of the Fifty-eighth Congress, and in whose districts or States appointments have not been made or vacancies filled in the Fifty-seventh Congress, may immediately upon the passage of this act make the additional appointments herein provided for.

“The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, district, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendations shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, district, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, district, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member.

“That the provisions of this act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress.

“That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico.

“That after January first, nineteen hundred and four, all candidates for admission to the Naval Academy at the time of their examination must be between the ages of sixteen and twenty years.”

An act of Congress approved April 9, 1906, reads as follows:

“AN ACT Granting authority to the Secretary of the Navy, in his discretion, to dismiss midshipmen from the United States Naval Academy and regulating the procedure and punishment in trials for hazing at the said academy.

“Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it shall be the duty of the Superintendent of the United

States Naval Academy, whenever he shall believe the continued presence of any midshipman at the said academy to be contrary to the best interests of the service, to report in writing such fact, with a full statement of the facts upon which are based his reasons for such belief, to the Secretary of the Navy, who, if after due consideration of the said report he shall deem the superintendent's said belief reasonable and well founded, shall cause a copy of the said report to be served upon the said midshipman and require the said midshipman to show cause, in writing and within such time as the said Secretary shall deem reasonable, why he should not be dismissed from the said academy; and after due consideration of any cause so shown the said Secretary may, in his discretion, but with the written approval of the President, dismiss such midshipman from the said academy. And the truth of any issue of fact so raised, except upon the record of demerit, shall be determined by a board of inquiry convened by the Secretary of the Navy under the rules and regulations for the government of the Navy.

"SEC. 2. That so much of the acts approved June twenty-third, eighteen hundred and seventy-four, and March third, nineteen hundred and three, as requires the Superintendent of the United States Naval Academy to convene a court-martial in all cases when it shall come to the knowledge of the said superintendent that any midshipman has been guilty of the offense commonly known as 'hazing,' and declares the finding of a court-martial so convened, when approved by the said superintendent, final, and directs that any midshipman found guilty by such court-martial shall be summarily dismissed from the said academy, and also all other acts or parts of acts inconsistent with the present act are hereby repealed, and that the offense known as 'hazing' may hereafter be proceeded against, dealt with, and punished as offenses against good order and discipline and for violation and breaches of the rules of said academy. But no midshipman shall be dismissed for a single act of hazing except under the provisions of section three of this act.

"SEC. 3. That the Superintendent of the United States Naval Academy may, in his discretion and with the approval of the Secretary of the Navy, cause any midshipman in the said academy to be tried by court-martial for the offense of hazing, as provided by the act approved June twenty-third, eighteen hundred and seventy-four, and such court-martial, upon conviction, may sentence such midshipman to any punishment authorized by the said act or by the act approved March third, nineteen hundred and three, or authorized for any violation or breach of the rules of the said academy by the said rules, or in cases of brutal or cruel hazing may, in addition to dismissal, sentence such midshipman to imprisonment for a period not exceeding one year: *Provided*, That such midshipman shall not be confined in a military or naval prison or elsewhere with men who have been convicted of crimes or misdemeanors; and such finding and sentence shall be subject to review by the convening authority and by the Secretary of the Navy, as in the cases of other courts-martial.

"SEC. 4. That the offense of 'hazing,' as mentioned in this act, shall consist of any unauthorized assumption of authority by one midshipman over another midshipman whereby the last-mentioned midshipman shall or may suffer or be exposed to suffer any cruelty, indignity, humiliation, hardship, or oppression, or the deprivation or abridgement of any right, privilege, or advantage to which he shall be legally entitled.

"SEC. 5. That it shall be the duty of every professor, assistant professor, academic officer, or any cadet officer or cadet petty officer, or instructor, as well as every other officer stationed at the United States Naval Academy, to promptly report to the superintendent thereof any fact which comes to his attention tending to indicate any violation by a midshipman or midshipmen of any of the provisions of this act or any violation of the regulations of the said academy. Any naval officer attached to the academy who shall fail to make such report as provided in this section shall be tried by court-martial for neglect of duty, and if convicted he shall be dismissed from the service. Any civilian instructor attached to the academy who shall fail to make such report as

provided in this section shall be dismissed by the superintendent of the academy upon the approval of the Secretary of the Navy.

"Sec. 6. That this act shall take effect from the date of its approval, but no midshipman now connected with the United States Naval Academy shall, by reason of its enactment, be punished for any offense heretofore committed otherwise than in pursuance of the sentence of a court-martial (if, by existing law, such sentence would be now necessary for such punishment) or punished more severely than is now by law allowed for any offense heretofore committed: *Provided*, That any midshipman now in said Naval Academy may waive his right to trial by court-martial under existing law for any offense of hazing heretofore committed and may accept punishment under the provisions of section two of this act."

By an act of Congress approved June 29, 1906, it was provided that—

"Hereafter the Secretary of the Navy shall, as soon as possible after the first day of June of each year preceding the graduation of midshipmen in the succeeding year, notify in writing each Senator, Representative, and Delegate in Congress of any vacancy that will exist at the Naval Academy because of such graduation, or that may occur for other reasons, and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate, if such recommendation is made by the fourth day of March of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, congressional district, or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, congressional district, or Territory in which the vacancy will exist and of legal qualification under the law as now provided. In cases where by reason of a vacancy in the membership of the Senate or House of Representatives or by the death or declination of a candidate for admission to the academy there occurs or is about to occur at the academy a vacancy from any State, district, or Territory that can not be filled by nomination as herein provided, the same may be filled as soon thereafter and before the final entrance examination for the year as the Secretary of the Navy may determine. The candidates allowed for the District of Columbia and all candidates appointed at large, together with alternates therefor, shall be selected by the President within the period herein prescribed for nomination of other candidates: *Provided*, That the President may select a candidate for the District of Columbia for the year nineteen hundred and eight.

"No person shall be admitted for instruction at the Naval Academy at Annapolis from any foreign country except upon authority of law hereafter enacted."

By an act of Congress approved March 7, 1912, it was provided—

"That the course at the Naval Academy shall be four years, and midshipmen on graduation shall be commissioned ensigns: *Provided*, That midshipmen now performing two years' service at sea in accordance with existing law shall be commissioned forthwith as ensigns from the date of the passage of this Act: *And provided*, That those midshipmen of the class which was graduated in nineteen hundred and nine, who have completed two years' service afloat, and who are due for promotion, shall be commissioned ensigns to take rank with the other members of their class, according to their standing as determined by their final multiples, respectively, for the six years' course, from the fifth day of June, nineteen hundred and eleven, the date of rank to which they were entitled prior to the passage of this Act: *And provided further*, That no back pay or allowances shall result by reason of the passage of this Act."

The class graduating from the Naval Academy, June, 1912, was the first class to be graduated as ensigns.

MERIT ROLLS FOR 1911-12.

Merit rolls, made out annually for each class, show the proficiency of the midshipmen in each branch of study. The numbers given in the table, showing the relative weight of the different branches, are used as coefficients; the final mark in each branch (on a scale of 4) being multiplied by the number assigned to that branch. The sum of the products, after adding the multiple for discipline, is the final mark of the midshipmen for the year.

In the graduating merit roll the final standing for the course is determined by the sum of the yearly multiples.

Midshipmen who attain 85 per cent of the multiple for a year shall be distinguished by a star affixed to their names on the annual merit rolls. (Regs. U. S. Naval Academy, 1911, par. 207.)

The diplomas of midshipmen whose final multiples on the graduating merit roll are not less than 85 per cent of the maximum shall read "passed with distinction"; those whose final multiples are less than 85 per cent but not less than 75 per cent of the maximum, shall read "passed with credit"; and those whose final multiples are less than 75 per cent of the maximum shall read "passed." (Regs. U. S. Naval Academy, par. 208.)

* Received 85 per cent of the multiple.

Candidates for the Naval Academy, and their parents and others interested in them, are urged to consider the advantages of completing their preparation for the Naval Academy at schools near home or with which they are familiar. The character of the entrance examination is clearly indicated in the specimens furnished, and in this pamphlet there is complete information as to the ground that the examination covers. With these guides it should be possible for any candidate, whose previous study has been faithful, to work to better advantage at his own home school than he could at a special preparatory school, "cramming" for the entrance examination. The authorities of the Naval Academy and of the Navy Department do not recommend any preparatory school for candidates, believing that it is more favorable, both to the candidate and to the naval service, to continue his preparation among persons familiar with his previous education and deeply interested in his individual success, rather than to subject him to the doubtful influences attendant upon entering another school, among strange surroundings and companions, for the short interval between appointment and entering the academy.

The advantage to candidates of securing their appointments as long as possible in advance of entrance is obvious, not only for passing the entrance examination, but also, and chiefly, for attaining high standing in the academic course.

REGULATIONS GOVERNING THE ADMISSION OF CANDIDATES INTO THE NAVAL ACADEMY AS MIDSHIPMEN.

GENERAL REMARKS.

1. There being no provision whatever for the payment of the traveling expenses of rejected candidates for admission, no candidate should fail to provide himself in advance with the means of returning home, in case of his rejection before either of the examining boards, as otherwise he may be put to considerable inconvenience.

2. It is suggested to all candidates for admission to the Naval Academy that, before leaving their places of residence for Annapolis, they should cause themselves to be *thoroughly examined by a competent physician*, particularly regarding eyesight, hearing, and heart trouble; and by a teacher or instructor in good standing. A defect such as varicocele, which is ordinarily removable by operation, should be remedied prior to appearing at the Naval Academy for physical examination. By such an examination any serious physical disqualification or deficiency in mental preparation would be revealed, and the candidate probably spared the expense and trouble of a useless journey and the mortification of rejection. It should be understood that the informal examination herein recommended is solely for the convenience and benefit of the candidate himself, and can in no manner affect the decision of the examining boards at Annapolis.

3. A sound body and constitution, suitable preparation, good natural capacity, an aptitude for study, industrious habits, perseverance, an obedient and orderly disposition, and a correct moral deportment are such essential qualifications that candidates knowingly deficient in any of these respects should not, as many do, subject themselves and their friends to the chances of future mortification and disappointment by accepting appointments at the Naval Academy and entering on a career which they can not successfully pursue.

4. The selection of candidates, by competitive examination or otherwise, for nomination from any congressional district, is entirely in the hands of the Member of Congress entitled to the appointment, and all applications for appointment or inquiries relative to competitive examinations should be addressed to the Congressman representing the congressional district in which the vacancy exists.

Copies of the entrance regulations showing a syllabus of the first year's work at the Naval Academy and specimen examination questions may be obtained on application to the Bureau of Navigation, Navy Department, or to the Superintendent of the Naval Academy; and as soon as nominated a copy of each of these publications will be forwarded direct to each candidate in order that he may spend his time profitably at his local school, and be better prepared to pursue his course at the Naval Academy successfully.

5. Special attention is called to the physical requirements of candidates, pages 7 and 8.

NOMINATION.

6. The students of the Naval Academy are styled midshipmen.

7. Two midshipmen are allowed for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year from the United

States at large. The appointments from the District of Columbia and five each year at large are made by the President.

8. One midshipman is allowed from Porto Rico, who must be a native of that island. The appointment is made by the President, on the recommendation of the Governor of Porto Rico.

9. After June 30, 1913, each Senator, Representative, and Delegate in Congress will be allowed to appoint but one midshipman instead of two.

10. The course for midshipmen is four years. Examinations on the ground covered are held at the end of each academic term. During the summer, midshipmen of the first, second, and third classes go to sea for about three months.

11. Midshipmen after graduation are commissioned as ensigns in the Navy; and occasionally to fill vacancies in the Marine Corps and in certain of the staff corps of the Navy.

12. "Hereafter the Secretary of the Navy shall, as soon as possible after the 1st day of June of each year preceding the graduation of midshipmen in the succeeding year, notify in writing each Senator, Representative, and Delegate in Congress of any vacancy that will exist at the Naval Academy because of such graduation, or that may occur for other reasons, and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate, if said recommendation is made by the 4th day of March of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, congressional district, or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, congressional district, or Territory in which the vacancy will exist and of the legal qualification under the law as now provided. In cases where by reason of a vacancy in the membership of the Senate or House of Representatives, or by the death or declination of a candidate for admission to the academy, there occurs or is about to occur at the academy a vacancy for any State, district, or Territory that can not be filled by nomination as herein provided, the same may be filled as soon thereafter and before the final entrance examination for the year as the Secretary of the Navy may determine."—(*Act approved June 29, 1906.*)

13. Candidates allowed for congressional districts, for Territories, and for the District of Columbia must be actual residents of the districts or Territories, respectively, from which they are nominated.

14. All candidates must, at the time of their examination for admission, be between the ages of 16 and 20 years. A candidate is eligible for examination on the day he becomes 16 and is ineligible on the day he becomes 20 years of age.

EXAMINATION.

15. "*All candidates for admission into the academy shall be examined according to such regulations and at such stated times as the Secretary of the Navy may prescribe. Candidates rejected at such examination shall not have the privilege of another examination for admission to the same class unless recommended by the board of examiners.*"—(*Rev. Stat., § 1515.*)

16. When any candidate who has been nominated upon the recommendation of a Senator, Member, or Delegate of the House of Representatives is found, upon examination, to be physically or mentally disqualified for admission, the Senator, Member, or Delegate shall be notified to recommend another candidate, who shall be examined according to the provisions of the preceding section.

17. Beginning with the year 1913, but two examinations for admission of midshipmen to the Naval Academy will be held each year, as follows: The first examination

to be held on the third Tuesday in February, the second on the third Tuesday in April, under the supervision of the Civil Service Commission, at points named in the accompanying list. All those qualifying mentally who are entitled to appointment in order of nomination will be notified by the superintendent of the Naval Academy when to report at the academy for physical examination, and if physically qualified will be appointed.

Candidates may be examined at any of the places named in the accompanying list.

Senators and Representatives are requested, when designating their nominees, to give the place at which it is desired they should be examined.

18. Alternates are given the privilege of reporting for mental examination at the same time with the principal.

19. No examination will be held later than the third Tuesday in April. The large number of midshipmen to be instructed and drilled makes this rule necessary, and it is to the great advantage of the new midshipmen themselves. The summer months are utilized in preliminary instruction in professional branches and drills, such as handling boats under oars and sails, and in seamanship, gunnery, and infantry drills. These practical exercises form most excellent groundwork as a preparation for the academic course.

20. The examination papers used in all examinations are prepared at the Naval Academy and the examinations of candidates are finally passed upon by the academic board. No candidate shall be admitted unless, in the opinion of the academic board, he shows the requisite mental qualifications.

21. Under the law, candidates failing to pass the entrance examination can not be allowed another examination for admission to the same class unless recommended for reexamination by the academic board.

22. Candidates who have successfully passed the entrance examination in a previous year shall not be required to take another mental examination for admission in the event of reappointment.

23. The Civil Service Commission merely conducts the examination of candidates whose names have been furnished by the Navy Department. All correspondence relative to the nomination and examination of candidates should be addressed to the Bureau of Navigation, Navy Department, Washington, D. C.

24. Candidates will be required to enter the academy *immediately after passing the prescribed mental and physical examinations*, or at such times as the Secretary of the Navy may designate.

25. *No leaves of absence will be granted to midshipmen of the fourth class.*

26. Candidates will be examined physically at the Naval Academy by a board composed of three medical officers of the Navy, whose decision will be final.

Physical examinations will habitually be held at the following times:

For candidates mentally examined in February, April, or in a previous year, at a date designated by the Superintendent of the Naval Academy, who will inform each candidate when to present himself for physical examination. The usual date for the physical examination is the first week in June of each year.

MORAL REQUIREMENTS.

27. Candidates must be of good moral character. *No candidate who has been dismissed for "inaptitude" in accordance with act of Congress approved April 9, 1906, shall be reappointed or allowed to reenter the Naval Academy.*

PHYSICAL REQUIREMENTS.

28. Candidates are required to be of good moral character, physically sound, well formed, and of robust constitution.

29. Any one of the following conditions will be sufficient to cause the rejection of a candidate, viz:

- (a) Feeble constitution, inherited or acquired.
- (b) Retarded development.
- (c) Impaired general health.
- (d) Decided cachexia, diathesis, or predisposition; anemia, from malaria or from intestinal parasites, as hookworm.
- (e) Any disease, deformity, or result of injury that would impair efficiency; such as—
 - (ea) Weak or disordered intellect.
 - (eb) Cutaneous or communicable disease.
 - (ec) Unnatural curvature of the spine, torticollis, or other deformity.
 - (ed) Inefficiency of either of the extremities or large articulations from any cause.
 - (ef) Epilepsy or other convulsions within five years.
- (f) Impaired vision, disease of the organs of vision, imperfect color sense; *visual acuteness must be normal, i. e., 20/20 for each eye without the aid of glasses.* There shall be no deviation from this standard.
- (g) Impaired hearing or disease of either ear. The organs of hearing, both the conductive apparatus (outer and middle ear) and the percipient apparatus (internal ear), must be free from disease. In testing the hearing of the candidate, the voice, the ticking of a watch, and, if practicable, Politzer's acoumeter shall be employed. The voice is a more reliable method of determining the acuteness of hearing than the ticking of an ordinary watch, as it allows for variations in hearing, with the modifications produced by changes in pitch and tone. Hearing in each ear must be normally acute to the spoken and whispered voice. In examining the acuteness of the hearing with the voice, one ear of the candidate should be closed while the other ear is being examined, and his eyes should be covered to prevent lip reading. The ticking of an ordinary watch should be heard a distance of 40 inches.
- (h) Chronic nasal catarrh, ozaena, polypi, or great enlargement of the tonsils.
- (i) Impediment of speech to such an extent as to impair efficiency in the performance of duty.
- (k) Disease of heart or lungs or decided indications of liability to cardiac or pulmonary affections.
- (l) Hernia, complete or incomplete, and undescended testis.
- (m) Varicocele, sarcocele, hydrocele, stricture, fistula, hemorrhoids, or varicose veins of lower limbs.

- (n) Phimosis and diseases of the genito-urinary organs.
- (o) Ingrowing nails, bunions, cross or hammer toes, flat feet or other deformity of feet.
- (p) Loss of many teeth, or teeth generally unsound. Marked overbite, or lack of occlusion of jaws. There should be at least eight opposing molars, two on each side in each jaw. All defective teeth should have permanent fillings. Much time can be saved by previous attention to this requirement.

30. Attention will also be paid to the stature of the candidate, and no one *manifestly* undersize for his age will be received at the academy. The height of candidates for admission shall not be less than 5 feet 2 inches between the ages of 16 and 18 years, and not less than 5 feet 4 inches between the ages of 18 and 20 years; and the minimum weight at 16 years of age shall be 111 pounds, with an increase of not less than 3 pounds for each additional year or fraction of a year over one-half. Any *marked* deviation in the height and weight relative to the age of a candidate will add materially to the consideration for rejection.

31. Candidates must be unmarried, and any midshipman who shall marry, or who shall found to be married, before his final graduation, shall be dismissed the service.

MENTAL REQUIREMENTS.

32. Candidates will be examined mentally in punctuation, spelling, English grammar, geography, United States history, arithmetic, algebra through quadratic equations, and plane geometry (five books of Chauvenet's geometry or equivalent). Deficiency in any one of these subjects may be sufficient to insure the rejection of the candidate. Maximum mark 4.00; passing mark 2.50. Certificates from colleges and high schools will not be accepted in lieu of entrance examinations. All candidates must take the prescribed mental and physical examinations.

GENERAL CHARACTER OF THE MENTAL EXAMINATION.

33. READING AND WRITING.—Candidates must be able to read understandingly, and with proper accent and emphasis, and to write legibly, neatly, and rapidly.

34. SPELLING.—They must be able to write, from dictation, a list of not more than 100 selected words, or paragraphs from standard pieces of English literature, both prose and poetry, sufficient in number to test fully their qualifications in this branch. The spelling throughout the examination will be considered in marking the papers. The academic board are instructed not to reject a candidate whose only deficiency is in spelling when the mark therefor is above a certain figure, to be fixed by the board, subject to the revision of the department.

35. PUNCTUATION AND CAPITALS.—They must be familiar with the rules for punctuation and for the use of capitals. In order to test their knowledge, sentences may be given for correction. Punctuation and the use of capitals throughout the examination will be considered in marking papers.

36. GRAMMAR.—Candidates must exhibit thorough familiarity with English grammar; they must be able to analyze and parse any sentence given, showing clearly the relations between the different parts of speech, and giving the rules governing those relations. The subject and predicate in the sentence must be given, with modifiers (if any), and also the part of speech, and kind, case, voice, mood, tense, number, person, degree of comparison, etc., as the case may be, of each word, and its relation to other words in the sentence.

They must be able to define the terms used in grammar, a number of which may be given as a test of their knowledge.

Sentences containing grammatical mistakes may be given for correction.

A composition on one of three subjects will be required.

Since the school grammars used in different parts of the country vary among themselves in their treatment of certain words, an answer approved by any grammar of good repute will be accepted.

37. GEOGRAPHY.—Candidates will be required to pass a satisfactory examination in descriptive geography, particularly of our own country. Questions will be given under the following heads: The definitions of latitude and longitude (including problems with regard to differences of time between places); the zones; the grand divisions of land and water; the character of coast lines; the climate of different parts of the United States; trade winds; the direction and position of important mountain chains and the locality of the higher peaks; the position and course of the principal rivers, their tributaries, and the bodies of water into which they flow; the position of important seas, bays, gulfs, and arms of the sea; the position of independent States, their boundaries and capital cities; the position and direction of great peninsulas and the situation of important and prominent capes, straits, sounds, channels, and the most important canals; great lakes and inland seas; position and political connection of important islands and colonial possessions; location of cities of historical, political, or commercial importance, attention being especially called to the rivers and bodies of water on which cities are situated; the course of a vessel in making a voyage between well-known ports.

The candidate's knowledge of the geography of the United States can not be too full or specific on all the points referred to above. Accurate knowledge will also be required of the position of the country with reference to other States, and with reference to latitude and longitude, of the boundaries and relative position of the States and Territories, of the name and position of their capitals, and of other important cities and towns.

The following-named textbooks are used in preparing examination questions: Mitchell's New School Atlas; Complete Geography, by A. E. Fry; Natural Advanced Geography, by Redway and Hinman.

38. UNITED STATES HISTORY.—The examination in this branch will include questions concerning the early settlements in this country; the forms of government in the colonies; the causes, leading events, and results of wars; and prominent events in the history of our Government since its foundation.

The following-named textbooks are used in preparing examination questions: A Student's History of the United States, by Edward Channing; The Students' American History, by D. H. Montgomery; A School History of the United States, by John Bach McMaster.

39. ARITHMETIC.—The candidate will be required—

To express in figures any whole, decimal, or mixed number; to write in words any given number; to perform with facility and accuracy the various operations of addition, subtraction, multiplication, and division of whole numbers, whether abstract or compound, and to use with facility the tables of money, weights, and measures in common use, including English money.

To reduce compound numbers from one denomination to another, and to express them as decimals or fractions of a higher or lower denomination; to state the number of cubic inches in a gallon and the relation between the troy and avoirdupois pounds, and to reduce differences of time to differences of longitude and *vice versa*.

To define prime and composite numbers; to give the tests of divisibility by 3, 5, 9, 11, 25, and 125; to resolve numbers into their prime factors, and to find the least common multiple and the greatest common divisor of large as well as of small numbers.

To be familiar with all the processes of common and decimal fractions; to give clearly the reasons for such processes, and to be able to use the contracted methods of multiplication and division given in the ordinary textbooks on arithmetic.

To define ratio and proportion, and to solve problems in simple and compound proportion.

To solve problems involving the measurement of rectangular surfaces and of solids; to find the square roots and the cube roots of numbers, and to solve simple problems under percentage, interest, and discount.

The candidates are required to possess such a thorough understanding of all the fundamental operations of arithmetic as will enable them to apply the various principles to the solution of any complex problem that can be solved by the methods of arithmetic; in other words, they must possess such a complete knowledge of arithmetic as will enable them to proceed at once to the higher branches of mathematics without further study of arithmetic.

The required ground is completely covered by any one of the following textbooks: Advanced Arithmetic, by G. A. Wentworth (first 16 chapters); A High School Arithmetic, by Wentworth and Hill; Standard Arithmetic, by William J. Milne; Arithmetic in Theory and Practice, by J. Brook-Smith.

40. ALGEBRA.—The examination in algebra will include questions and problems upon the fundamental rules, factoring, greatest common divisor, least common multiple, algebraic fractions, equations of the first degree with one or more unknown quantities, simplification of expressions involving surds, and the solution and theory of quadratic equations, problems involving the formation of simple and quadratic equations, and the meaning and law of exponents, positive, negative, and fractional.

The requirements are fully expressed in Wentworth's College Algebra (Revised), first 14 chapters, or Wentworth's Elementary Algebra, first 21 chapters; Milne's Academic Algebra, 324 pages.

41. GEOMETRY.—In geometry, candidates will be required to give accurate definitions of terms used in plane geometry, to demonstrate any proposition of plane geometry as given in the ordinary textbooks, and to solve simple geometrical problems, either by a construction or by an application of algebra. Either of the following textbooks cover the ground required in geometry: Wentworth and Hill's Plane and Solid Geometry (5 books); Robbin's Plane Geometry; Chauvenet's Geometry (5 books).

42. The entrance examination used in June, 1912, for the purpose of determining the mental qualifications of candidates for admission is quoted below in full.

SAMPLE ENTRANCE EXAMINATION.

(June, 1912.)

DICTIONATION EXERCISE IN SPELLING.

GRAMMAR.

[1 hour and 20 minutes allowed for this subject.]

1. The rain fell in sheets hurry up 'n git under cover jabe said brad gibson you're jest the kind of a pole to draw lightnin' you haint then retorted jabe there aint enough o' you fer the lightnin' to ketch holt of

(a) Arrange this selection in paragraphs, capitalize it, and punctuate it.

(b) Mention five mistakes in pronunciation in this selection.

2. Correct, or improve, if necessary, the English of the following:

(a) This contains one of the most inspiring stories that ever has been written.

(b) If we have sufficient preparation we will pass this examination.

(c) He was very angry. The boy had broken his vase. The missile had struck a beautiful window. The window was broken.

(d) He cried out in the court room like he was guilty and must confess.

(e) It was hard to believe that such a ragged figure could by any possibility be he.

(f) When he went through the town he saw a boy beating a horse, that stirred his indignation to the boiling point.

(g) The boy who tries his best, not the boys who are slowest to work and quickest to play, win out.

(h) There was no necessity for the family to feel discouraged over the loss of their home, nor for John, the eldest son, to so suddenly disappear, never to return.

(i) Gradually coming nearer, a small hill was seen, studded with small pines, and crowned with a ledge of naked rock.

(j) When Sarah found that the dough had failed to raise she fled to the garden and laid there crying.

3. (a). Classify fully the clauses in the following: The assertion that the majority of the electors did not realize for what they were voting is difficult to believe, and, if believed, makes a caustic commentary on the intelligence of the electorate.

(b) State the grammatical use in the sentence of *intelligence*, *commentary*, *that*, *believed*.

(c) Parse *electors* and *realize*.

(d) Give the inflection, future tense, active voice, of *makes*.

4. Write a theme of one page on one of the following:

(1) The presidential election of 1912.

(2) Your favorite song.

(3) Recommend a school for your younger brother, using the form of a letter to your mother.

GEOGRAPHY.

[1 hour and 20 minutes allowed for this subject.]

1. (a) Define the following terms: (1) Sextant; (2) dune; (3) tidal wave; (4) isotherm; (5) equinox.

(b) Name eight cities situated on the Great Lakes.

(c) Bound (1) Michigan, (2) Sweden.

(d) (1) Describe the course of the Gulf Stream, and explain its effect. (2) Exclusive of States, what organized territory (with governor and legislature) belongs to the United States Government?

2. (a) (1) Name the capitals of (a) Tripoli, (b) Persia, (c) Roumania, (d) Java. (2) Name four of the Hawaiian Islands.

(b) What European countries control the following: (1) Iceland; (2) Greenland; (3) Egypt; (4) Madagascar; (5) Jamaica; (6) Java; (7) Straits Settlements; (8) Azores?

(c) Name the larger islands and the island groups of the West Indies.

(d) Name the republics of Europe.

3. (a) Locate (1) Isle of Pines, (2) Toulon, (3) Lake Baikal, (4) Isle of Man.

(b) (1) What territory is controlled by Denmark? (2) What is the magnetic pole?

(c) What would be the course of a ship on a voyage from Odessa to Trieste?

(d) What would be the course of a ship from Duluth to Liverpool?

4. (a) When it is 12 o'clock at 45° east longitude, what time is it at West Point, N. Y.?

(b) Bound the Torrid and the South Temperate Zones in terms of latitude.

(c) Locate (1) Yellowstone National Park, (2) Lake Pontchartrain, (3) Lake Okechobee, (4) Lake Champlain.

(d) Locate (1) Albemarle Sound, (2) Iloilo, (3) Richelieu River, (4) Cape Hatteras.

UNITED STATES HISTORY.

[1 hour and 15 minutes allowed for this subject.]

1. (a) Give a brief account of New Amsterdam up to the year 1660. (b) What did the following men accomplish (give dates): (1) Cartier; (2) Cortez; (3) De Soto; (4) La Salle? (c) Give main events, results, and dates of Queen Anne's War. (d) Tabulate as many of the causes of the Revolutionary War as you can.

2. In respect to the following battles tell (1) names of the American or Union commanders, (2) locality, (3) date, (4) results: (a) Cowpens; (b) *Constitution* and *Guerriere*; (c) Fort Donelson; (d) Santiago; (e) Resaca de la Palma; (f) Monmouth; (g) Gettysburg; (h) Antietam.

3. (a) Discuss briefly the principal military and naval events of the year 1814. (b) Mention (be brief) two American poets, two novelists, two historians, two inventors.

4. Explain the significance of the following: (a) "Big stick"; (b) progressive Republican; (c) Federalist; (d) Free Soilers; (e) Thomas Wilson Dorr; (f) Aaron Burr; (g) Webster-Hayne debate; (h) nullification.

WORLD'S HISTORY.¹

[1 hour and 45 minutes allowed for this subject.]

1. (a) Give a short account of the art and the religion of early Egypt. (b) Why is the Age of Pericles celebrated in Grecian history? (c) Give the dates and the results of three important battles fought by the Romans in the time of the Republic.

2. (a) Give the names and the dates of the English rulers between Queen Elizabeth and Queen Anne. What were George I's claims to the throne? (b) Name six great Englishmen of the Age of Elizabeth. Tell in a sentence why each of them is famous. (c) What are the chief alliances at the present among the European powers?

3. When and where did each of the following live, and what is each famous for: (a) Mary Stuart; (b) Rembrandt; (c) Plato; (d) Luther; (e) Epictetus; (f) Henry of Navarre; (g) Disraeli; (h) Victor Hugo; (i) Garibaldi; (j) Erasmus; (k) Barbarossa; (l) Cervantes?

4. It has been said that the idea of republican government was most popular during the eighteenth century, and that since then the monarchical form of government has held its own. Write what you can in refutation or support of this statement.

5. What were the causes of the following wars: (a) French Revolution; (b) Crimean War; (c) war between Russia and Japan; (d) Hundred Years' War; (e) Spanish-American War?

ALGEBRA.

[Three hours allowed for this subject.]

1. (a) Factor $x^4 - 11x^2y^2 + y^4$, $x^2 - 11x + 30$, and $6x^2 + x - 2$.

$$\text{Simplify } \frac{x^2 - 2x + 5}{(x^3 - 1)(x + 1)} - \frac{10x - 1}{3(x^2 + x + 1)} + \frac{10x - 11}{3(x^2 - 1)}.$$

(b) Solve the equations $\frac{1}{x-2} - \frac{1}{x-4} = \frac{1}{x-6} - \frac{1}{x-8}$ and $(x+1)(x+2)(x+3) = (x+4)(x+5)(x-3)$.

2. (a) If 3 be added to both numerator and denominator of a given fraction its value is $\frac{4}{5}$; but if the same number be subtracted, the value of the fraction is $\frac{1}{2}$. Find the fraction.

(b) Solve the simultaneous equations $\frac{1}{x} + \frac{1}{y} = 5$, $\frac{1}{y} + \frac{1}{z} = 6$, and $\frac{1}{z} + \frac{1}{x} = 7$.

3. (a) Simplify $\frac{\sqrt{5} + \sqrt{3}}{\sqrt{5} - \sqrt{3}}$. Simplify $\frac{\sqrt{1+x} + \sqrt{1-x}}{\sqrt{1+x} - \sqrt{1-x}}$ first by rationalizing the numer-

ator, and then the denominator. What is its value when $x = \frac{2a}{a^2 + 1}$?

(b) Solve the equation $(a-b)x^2 - (a+b)x + 2b = 0$. Also, solve $3x^2 - 14x + 4 = 0$, verifying the results in this second case by the relations between the sum of the roots and their product and the coefficients of the equation.

¹ This subject no longer a part of the entrance examinations.

4. (a) Solve the equations $x^2+xy+2y^2=44$ and $2x^2-xy+y^2=16$. How many roots are there for x and for y ?

(b) Solve the equation $\sqrt{x+7}+\sqrt{x-5}-\sqrt{3x+9}=0$.

5. (a) The larger of two pipes fills a cistern in 6 hours less time than the smaller, and if both run together they would fill it in $10\frac{2}{3}$ hours. Find the time it takes each pipe to fill it alone.

(b) Solve the equation $2mx^2+(5m+2)x+4m+1=0$; and show for what values of m its roots will be: (1) Real and equal, (2) real and unequal, and (3) imaginary.

GEOMETRY.

[3 hours allowed for this subject.]

1. (a) Define the different kinds of triangles. Prove that the angles opposite the equal sides of an isosceles triangle are equal. If the vertical angle of an isosceles triangle is 36° , show that the bisector of one of the base angles divides the triangle into two isosceles triangles.

(b) If the base AB of a triangle is 20 inches long, and DE is drawn parallel to AB , dividing AC at D , so that $AD : DC :: 2 : 3$, find the length of DE .

2. (a) Prove that the adjacent angles of a parallelogram are supplementary. If the sides of a parallelogram are a and b and the included angle is 30° , find the area.

(b) Two chords, APB and CPD , intersect at P (within the circle). Prove that the angle APC is measured by one-half the sum of the intercepted arcs AC and BD .

3. (a) Prove that the segments of the chords of Question 2 (b) are reciprocally proportional; i. e., that $AP \times PB = CP \times PD$.

(b) If the point P of Question 2 (b) is 3 feet from the center of a circle of 5 feet radius, and APB is a diameter and CPD a perpendicular chord, find the lengths CD , AD , and BD . Find the locus of the mid-points of all chords equal to CD , and also the locus of the mid-points of all chords drawn through P .

4. (a) What is the relation between the areas of similar figures? What portion of a triangle is cut off by a line parallel to its base and one-fourth of the altitude distant from the base? What is the ratio of the two areas into which the triangle of Question 1 (b) is divided by DE ? How would you divide a circle into n equal parts by drawing concentric circles?

(b) Find the area of an equilateral triangle inscribed in a circle of 2 feet radius (correct to 3-decimals), and the area of the segment cut off from the circle by one side of the triangle.

5. (a) Show how to construct a *mean proportional* between two lines of lengths a and b inches, respectively, and prove your construction.

(b) Three equal circles of a radius a touch each other and another circle is circumscribed about them. Find the radius, circumference, and area of the circumscribed circle.

ARITHMETIC.

[Three hours allowed for this subject.]

1. (a) Find the number of degrees, minutes, and seconds in an arc of a circle the length of which is equal to the radius. ($\pi=3.1416$.)

(b) Write a column of six numbers, the first of which is 356, the second 128 greater than the first, the third 128 greater than the second, and so on; find the sum of the six numbers, and write the quotients of each number by the sum to six decimals, in a second column. Add the six quotients.

2. (a) Simplify $\{\frac{5}{8} \text{ of } (\frac{3}{4} + \frac{4}{5}) + \frac{7}{8}\} \div \{\frac{5}{8} \text{ of } (\frac{5}{8} + \frac{7}{8}) + \frac{3}{4}\}$.

Simplify $\frac{1}{3} \times \frac{9}{10} \times \frac{2}{5} \times \frac{5}{6} \times \frac{7}{10} \times \frac{9}{10} \times \frac{1}{3} \frac{5}{4} \frac{5}{5}$.

(b) Arrange in order of magnitude, to six decimals, the three values of π , 3.1415926, $\frac{22}{7}$, $\frac{355}{113}$. Express as a decimal the value of $(0.002965)\frac{1}{3} \div (2.965)\frac{1}{3}$.

3. (a) Find the value to six decimals of $\frac{4-\sqrt{6}}{4+\sqrt{6}}$.

(b) Find, to the nearest tenth of a foot, the dimensions of a cubical tank which will just hold a rainfall of 1 inch in depth on a field of 20 acres. If 1 cubic foot of water weighs 62.5 pounds, how many tons of 2,000 pounds are there?

4. (a) An importer, after paying 15 per cent duty on an article, sells at a profit of 20 per cent to a dealer, who in turn receives \$193.20, making 40 per cent profit. What was the original cost?

(b) The driving wheels of a locomotive are 6 feet 3 inches in diameter, and make 110 revolutions per minute. Find the speed in miles per hour. ($\pi=3.1416$.)

5. (a) How many acres in a rectangular field, the dimensions of which on the surveyor's plat are 1.25 by 2.16 inches, if the scale of the map is 1 inch to 4 miles?

(b) In firing at a target A hits 2 out of 3 shots, B hits 3 out of 4, and C hits 4 out of 5. If each fires the same number of shots, and if the target is hit 931 times, find the number of hits made by each and the total number of shots.

ADMISSION.

43. Candidates who pass the required examinations will receive appointments as midshipmen and be admitted as such to the Naval Academy. Each midshipman on admission will be required to sign articles by which he binds himself to serve in the United States Navy eight years (including his time of probation at the Naval Academy), unless sooner discharged. He will be required to certify on honor his exact age.

44. The pay of a midshipman is \$600 a year, commencing at the date of his admission.

45. Midshipmen will supply themselves, immediately upon their admission, with the following articles, viz:

One white cap and anchor.....	\$2.35	One hand glass.....	\$1.10
One dress jacket.....	20.78	One blue jersey.....	2.55
One blouse.....	15.22	Two blue jerseys.....	3.24
One pair dress trousers.....	11.83	One pair white shoes.....	1.95
One pair service trousers.....	6.68	Three white hats.....	1.35
One overcoat.....	26.98	One jackknife.....	.40
One reefer.....	12.18	Two lanyards.....	.22
One mackintosh.....	10.00	Six sheets.....	4.20
One cap cover.....	.30	Hammock clews.....	.45
Eight work suits.....	8.00	One pair bathing trunks.....	.15
Two pairs regulation leggings.....	1.50	Three pairs white gloves.....	1.20
One parade cap.....	3.05	Two clothes bags.....	.50
One knit cap.....	.60	One hammock mattress.....	3.00
One mug.....	.08	One requisition book.....	.30
One soap box.....	.18	One pass book.....	.30
One laundry book.....	.20	Two stencils, ink, and brush.....	.60
One pair blankets.....	4.20	Washbasin and pitcher.....	.95
One pair overshoes.....	.75	One pair gymnasium slippers....	.85
Two pairs high shoes.....	8.52	*One whisk.....	.19
Eight white shirts.....	4.00	*One coarse comb.....	.11
Twelve collars.....	1.10	*One cake soap.....	.25
Four white blouses.....	16.00	*One hairbrush.....	.61
Four pairs white trousers.....	8.00	*Stationery.....	1.75
Twelve pairs cuffs.....	2.00	*Twelve white handkerchiefs....	2.25
Twelve pairs socks.....	2.25	*One pair suspenders.....	.40
*Eight towels.....	1.60	Four suits pajamas.....	3.40
*Shaving outfit.....	2.50	*One toothbrush.....	.20
Six pairs drawers (summer).....	2.10	*Thread and needles.....	.75
Six undershirts (summer).....	2.10	*Blacking brush and blacking....	.55

*Nailbrush.....	\$0. 20	Two spatter cloths.....	\$1. 00
Six pillowcases.....	. 72	One hair pillow.....	. 75
One black silk neckerchief.....	. 40	One rug.....	. 70
Name plate.....	. 11	One hair mattress.....	5. 10
Two bedspreads.....	2. 64	One broom.....	. 35
Two pairs drill gloves.....	1. 00		
One slop jar.....	. 95		220. 64

The articles marked *, not being required to conform to a standard pattern, may be brought by the midshipman from home, but all other articles must conform to the regulations, and must therefore be supplied by the storekeeper.

46. Each midshipman must, on admission, deposit with the pay officer the sum of \$60, for which he will be credited on the books of that officer, to be expended by direction of the superintendent in the purchase of textbooks and other authorized articles besides those enumerated in the preceding article.

47. All deposits for clothing and the entrance deposit of \$60 must be made before a candidate can be received into the academy.

48. Checks for these deposits *must not be made payable to the order of the superintendent*. They should be made payable to the candidate's own order and be presented to the pay officer of the Naval Academy at the time of deposit.

SUMMARY OF EXPENSES.

Deposit for clothing, etc.....	\$220. 64
Deposit for books, etc.....	60. 00
	280. 64

The value of clothing brought from home is to be deducted from this amount.

49. Each midshipman will be paid, as soon as adjusted by the Treasury Department, the amount of his actual expenses in traveling from his home to the academy.

PRACTICAL INSTRUCTION OF MIDSHIPMEN.

DISCIPLINE.

Infantry, schools of the squad, company, battalion, and brigade in close and extended orders; setting-up and bayonet exercises.

SEAMANSHIP.

Knotting and splicing; compass and lead line; ship nomenclature; cutting and fitting hemp rigging; cutting and fitting wire rigging; rowing, and the management of boats under oars and under sail; sailmaking; making up, bending, unbending, and handling sails; getting under way and anchoring; signaling—wigwag, semaphore, night, general, telegraphic, boat, and international; management of steam launches, steam fleet tactics with steam launches, and the practical handling of tugboats; use of sounding machine; securing boats for sea; mooring and clearing hawse; sail drill; handling heavy weights; steering a ship under way; war-game board.

ORDNANCE.

Target practice with small arms; handling and firing torpedoes; the preparation, inspection, care, and preservation of ordnance material; gun drill, loading drill, mines; spotting, fire control, and fire-control instruments.

NAVIGATION.

The practical work in this department continues throughout the academic year, certain midshipmen from each section being employed during each period assigned to this department at work in the section room, at compass work in the model room, by divisions or in field work with the various navigational and surveying instruments. The character of the work may be outlined under the following heads:

Navigation.—Practical work with charts, including a study of the information and tidal data given on them; laying off courses and measuring distances on different projections; transferring great circle routes from great circle charts to mercator charts; different methods of plotting positions and laying down "Sumner lines," and the general uses of "Sumner lines"; pilotage and chart work into and out of the principal harbors on the coasts of the United States and when coasting; use of soundings and contour lines, especially in a fog; correction of charts and publications from information furnished by "Notices to Mariners." Adjusting a sextant and a stadimeter; observations with sextant and artificial horizon for time, longitude, chronometer error, latitude, and azimuth. Winding and comparing chronometers and methods of keeping records of same on board ship. Rating chronometers by noontime signal.

Compass deviations.—Swinging a model ship and obtaining deviations of the compass, compensation of the compass, using a navy binnacle, Type VI. The same compass work is done later in the course on board a modern vessel in Chesapeake Bay.

Surveying.—Adjustment of and field work with theodolite and plane table. Surveying and constructing a chart of a portion of the Severn River.

Work afloat.—Throughout the summer practice cruises, the midshipmen are required, under the supervision of an officer from the Naval Academy, to perform all the general duties of a navigator, with particular reference to the adjustment and use of the navigational instruments on board, to practical pilotage, and at sea, to the determination of the ship's position by observation.

MARINE ENGINEERING AND NAVAL CONSTRUCTION.

Shopwork.—The pattern shop: Selection and treatment of different woods for different purposes; elementary work of the carpenter shop, through mortising, joining, etc., to finish pattern work.

The foundry: Iron and brass casting; the making of bronzes, alloys, etc.

The blacksmith shop: Forging, welding, etc.; tempering, casehardening, etc.; bending and quenching tests of metals, etc.

The boiler shop: Riveting, soft and hard patching, calking, annealing, tube expanding; testing, etc.

The coppersmith shop: Soldering, hard and soft; sweating patch on a copper pipe; making copper pipe; putting flanges on a pipe; use of oil furnace and oil heater.

The machine shop: Vise bench work; machine tool work, including the setting of work; turning; planing; boring; slotting; pipe fitting; use of working drawings.

Ship work.—Management of main and auxiliary engines; fireroom and engine-room routine, firing, water tending, and oiling; management of engines while maneuvering at sea; determining the condition and locating defects in machinery while in motion; lying under banked fires; coming to anchor; overhauling machinery; cleaning boilers and condensers, etc.

Miscellaneous.—Use of slide rule, averaging machine, apparatus for testing oils and smoke gases; standardizing steam gauges and indicators; boiler test; use of pyrometers; running of explosive engines; torsion meter; steam turbines; pneumatic and hydraulic machinery; water meters; wier; traps; ice machines, air and carbonic anhydride; power measuring, by indicator and dynamometer; metal and cement testing; fuel and steam calorimeter tests; fireroom timing device; distilling plant; pulsometer; hydraulic pumps and rams; air compressors, Rand and Westinghouse; engine governors; long-arm doors; steering and anchor engines; docking ships, graving and floating docks.

PHYSICS AND CHEMISTRY.

Experimental work in the chemical and physical laboratories, illustrating and supplementing the class-room instruction.

ELECTRICAL ENGINEERING.

Dip circle, magnetic fields; induced currents; measuring resistance by different methods; divided circuits, fall of potential; use and calibration of different measuring instruments supplied to ships; setting up and operating of primary and secondary batteries; operation of searchlights and control mechanism, arc and mercury vapor lamps; telephones and all other electrical interior communication apparatus supplied to naval vessels; operation and measuring efficiencies of dynamos and motors; devices for motor control, manipulation of switchboard; operation of electrical machinery supplied to naval vessels, including all turret-turning systems, gun elevating, ammunition hoist, and rammer equipment, forced draft blower, etc.; testing for and locating faults and grounds; measuring insulation resistance of electric plant; elementary study of inductance and capacity in alternating current circuit; alternating current dynamos, motors, and transformers; radio telegraphy apparatus and practice in use of the code.

PHYSICAL TRAINING.

Class drills in calisthenics, free movements and with apparatus.

Special exercises to promote symmetrical development when necessary. Athletic exercises, including boxing and swimming. Dancing.

Assignment of drill periods during October, November, April, and May.

CLASS OF 1871 PRIZE.

The members of the class graduated from the United States Naval Academy in 1871, desiring in a permanent way to "Emphasize and record their loyalty to the Government, their affection for their alma mater, and their regard for the naval service," subscribed in 1904 a certain sum of money to be known as the "Class fund of 1871, United States Naval Academy," which fund was transferred by duly authorized and executed deed of gift to trustees. This deed of gift is recorded in the office of the recorder of deeds, District of Columbia, and copies of it are filed in the offices of the Secretary of the Navy and of the Superintendent of the Naval Academy.

By the terms of the deed of gift the income of this fund shall be employed for the purchase each year of a prize to be known as the "Class of 1871 prize," to consist of a suitable Navy dress sword and knot, to be presented to "that midshipman of each graduating class of the United States Naval Academy who has completed the prescribed course, and who shall be considered by the superintendent, the commandant of midshipmen, and the head of the department of ordnance and gunnery as the most proficient in practical and theoretical ordnance and gunnery."

"This prize is to be accompanied by an appropriately engraved letter containing the names of the donors and setting forth the purpose of the gift, and expressing the hope of the class of 1871 that the encouragement thus offered by old class members, both in and out of the service, to younger ones, will serve to increase the interest already existing among the midshipmen in an important professional science and art."

The "Class of 1871 prize" has been awarded as follows:

- 1905, to Midshipman Royal Eason Ingersoll.
- 1906, to Midshipman William Alexander Glassford, jr.
- 1907, to Midshipman Arthur William Frank.
- 1908, to Midshipman Eugene Edward Wilson.
- 1909, to Midshipman William Ward Smith.
- 1910, to Midshipman Follett Bradley, jr.
- 1911, to Midshipman Frederick Southard Hatch.
- 1912, to Midshipman Harold Eugene Saunders.

PRIZES AWARDED DURING ACADEMIC YEAR 1911-12.

PRESENTED BY THE UNITED STATES NAVAL ACADEMY FOR GENERAL EXCELLENCE IN TARGET PRACTICE.

Gold medal, small arms, Midshipman J. M. Kates, class 1913; silver medal, small arms, Midshipman H. G. Skinner, jr., class 1913; bronze medal, small arms, Midshipman L. R. Gray, class 1913.

The names of the following midshipmen have been engraved on the cup presented by the General Society, Sons of the Revolution, April 19, 1905, to the brigade of midshipmen of the United States Naval Academy as a trophy on which to inscribe each year the name of the midshipman who shall be determined as the most proficient in great-gun target practice or practical ordnance and gunnery:

1905, Midshipman Halford Robert Greenlee, United States Navy.

1906, Midshipman Herbert Justice French, United States Navy.

1907, Midshipman Carl Townsend Osburn, United States Navy.

1908, Midshipman Willis Augustus Lee, jr., United States Navy.

1909, Midshipman Harold Travis Smith, United States Navy.

1910, Midshipman Herbert Otto Roesch, United States Navy.

1911, Midshipman Oscar Charles Badger, United States Navy.

1912, Midshipman Harold Eugene Saunders, United States Navy.

The Naval Academy rifle team did not participate in the national team match, held at Camp Perry, Ohio, August, 1912.

There was no race for the "Lysistrata challenge cup" in 1912.
